Purpose of this educational activity

Through Other Eyes is an educational fiction novella (short novel) about diversity. Through a fiction story, readers will follow a cast of six nurse characters as they navigate through the challenges of interacting with patients and colleagues who are different from themselves. The story will the reader identify contemporary issues related to diversity in a health care setting and explore meaningful and respectful ways to interact when diversity presents challenges.

Learning Objectives

Upon completion of this educational activity, the participant should be able to:

Upon completion of this educational activity, the reader should be able to:

- 1) Discuss the importance of putting personal biases aside when working in a health care environment
- 2) Explain why it is important to avoid stereotyping and generalizing
- 3) Describe how respecting differences and honoring personal preferences supports healthy work and patient care environments
- 4) Identify one way to resolve misunderstandings rooted in diversity
